Sprint 2 Report
Team: SMS

Actions to stop doing:
Our team is completely satisfied with our current process because we meet on time to discuss our current tasks, and that we are able to finish our tasks on time.

Actions to start doing:
Our team should schedule more group work sessions, to get updates about what we're currently doing, and to get work done more effectively. Our team should be more accurate at estimating work tasks, our burndown chart was not accurate due to the fact that we thought it was going to be hard to achieve our sprint goal. As of now, we updated our burndown chart to a more accurate one.

Actions to keep doing:
-Keep meeting with group to get work done more effectively.
-Keep communicating with group about the project so that we can get work done on time.

Work completed/not completed:
User story 1 completed:
As a user, I want to sort programs as I want, so that I can see the rank of each usage.
User story 2 completed:
As a user, I need to access the monitor, so that I can determine if the algorithm works properly.
User story 3 completed:
As a user, I want to have an alert function, so that I can be notified if my resource usages are being used more than usual.
User stories that are not completed: none

Work completion rate:
Total number of user stories completed during the prior sprint: 3
Total number of estimated ideal work hours completed during the prior sprint: 15 hours
Total number of days during the prior sprint: 5 days
Average user stories/day: ⅗, average ideal work hours/day: 15/5=3

Final burndown chart of this sprint:
